

THE 853PRO-FL

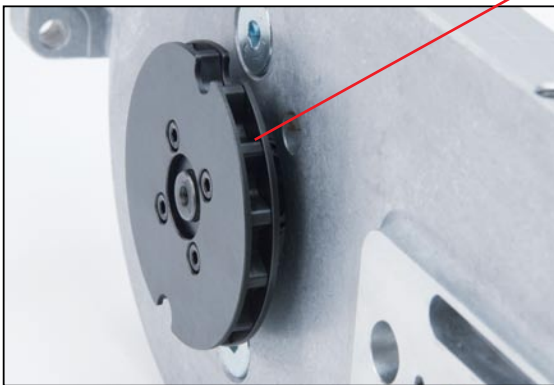

High performance for the pro cutter

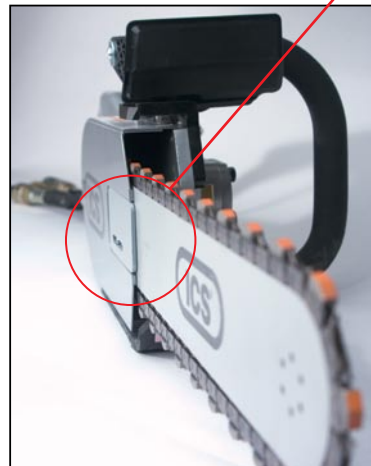

The 853PRO-FL series professional saw is built tough to stand up to everyday use in the harsh environment of concrete cutting. You can cut up to 24" with our longest professional guide bar and cut within .187" from a wall or floor. Cut perfect corners and an endless variety of irregular shapes and flush cuts that are simply not possible with circular saws.

Available in 8 gpm and 12 gpm.

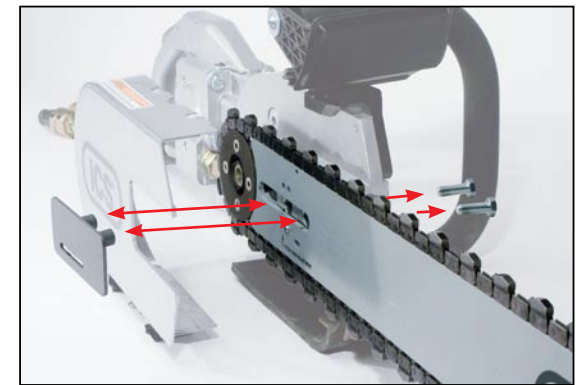

Uses 853PRO series guide bars & diamond chains from 11" to 24"

Proprietary heat treated flush cut rim sprocket

Flush within .187 (3/16", 4.7mm)

- Separate back-side tensioned bar mounting and side cover for chain adjustment and replacement
- Additional anti-abrasive wear-pad in side cover
