

1 产品概述 Product Summarize

用于大容量双稳态触点的工业控制和其他一般控制上，也用于交直流操作的各种保护与自动控制系统中作为切换闭锁元件。

It's used in not only industrial controlling system and general controlling system with large capacity and double stable contacts, but also AC/DC protecting and automatic controlling system, working as switching latching device.

2 主要技术参数 Main Technological Parameter

型号 Type	DCS-11(RK251,204),DCS-12(RK251,205),DCS-13(RK251,206)	
额定电压 Rated voltage	DC(V)	24,48,55,110,125,220,250
	AC(V)	24,55,110~117,220,380
动作值 Action value	≤ 70% 的额定电压 ≤70% of rated voltage	
动作时间 Action time	动合 Movable connection	30ms
	动断 Movable disconnection	20ms
触点容量 Contact capacity	DC	220V 1A(L/R ≤ 40ms)
	AC	250V 20V

3 安装开孔尺寸、接线图 Mounging plate opening size,Wiring drawing
