

1 产品概述 Product Summarize

用于交流操作的各种继电保护装置中，以增加触点数量和触点容量。

电磁式，是直流操作的DZ-30B型中间继电器加整流环节派生的产品。

This series are applying for all kinds of relay protective equipments operated by AC to increase contact number and contact capacity.

This series adopt electromagnetic type, and are products derived from DZ-30B type middle relay operated by DC through rectification.

2 主要技术参数 Main Technological Parameter

型号 Type	DZJ-11	DZJ-12
触点形式 Contact type	3动合,3转换 3 move to match, 3 switching	6动合 6 move to match
额定电压 Un(V) Rated voltage Un	380,220,110	
动作电压 Operation voltage	$\leq 80\%U_n$	
返回电压 Return voltage	$\geq 5\%U_n$	
动作时间(ms) Operating time (ms)	≤ 60	
功率消耗 Power consumption	380V $\leq 9VA$ 220、110V $\leq 5VA$	
触点断开容量 Contact breaking capacity	直流有感电路(W) DC inductive circuit	50
	交流电路(VA) AC circuit	250

3 安装开孔尺寸、接线图 Mounging plate opening size,Wiring drawing
