

1 产品概述 Product Summarize

继电器用于磁力控制器或保护开关板上，作为交流电动机过载和短路保护之用。不适于在下列条件下工作。

This series are applying for magnetic blow out controller or protective switch plate as AC motor overload and short circuit protection. This series are unsuitable to work under the following conditions.

2 主要技术参数 Main Technological Parameter

线圈代号 Coil code	容许电流(安) Allowable current	通电持续率 On-power sustainable	调整范围 (安) Adjustment range	标定刻度(安) Labeled calibration
	100%	90%		
1	600	900	720 ~ 2330	700,1500,2250
2	300	450	360 ~ 1160	375,750,1100
4	150	225	192 ~ 585	200,400,550
6	100	150	120 ~ 465	140,200,400
8	80	120	96 ~ 312	110,200,300
11	60	90	72 ~ 233	80,150,225
16	40	60	48 ~ 150	55,100,150
32	20	30	24 ~ 78	25,50,75
45	15	25	18 ~ 62	20,35,54
64	10	15	12 ~ 39	13,25,38
125	6	10	10 ~ 25	9,20,30

3 安装开孔尺寸、接线图 Mounging plate opening size,Wiring drawing
