

### 1 产品概述 Product Summarize

用于零序电压回路，作为接地保护以及其他整定值远低于额定值的回路中，作为低定值的过电压启动元件。

This series are applying for ground protection and other loops that setting value is far below rated value of zero sequence loop as over-voltage starting element of low setting value.

### 2 主要技术参数 Main Technological Parameter

交流额定值 AC rated value	(V)	100
	(Hz)	50
整定值(V) Setting value (V)	3.1 端子短接 3.1 terminal short circuit	3 ~ 6
	3.5 端子短接 3.5 terminal short circuit	6 ~ 12
返回系数 Return coefficient		$\geq 0.4$
三倍整定值动作时间(ms) Operating time (ms) 3 times setting value		$\leq 10$
功率消耗(VA) Power consumption (VA)		$\leq 10$
触点断开容量(W) Contact breaking capacity (W)		$\geq 10$
重量(kg) Weight (kg)		0.7

### 3 安装开孔尺寸、接线图 Mounging plate opening size,Wiring drawing
